FEDORA

Federation of network optimisation services, simulation foresights, and data alchemy for adaptable, agile, secure, and resilient multimodal traffic management.

Empowering sustainable, connected, and intelligent transport across Europe.

General Project Information

Duration	36 months (June 2025 - May 2028)
Coordinator	ERTICO - ITS Europe
Partners	16

6 Pilots

Vienna (AT)
Basque Country (ES)
Nicosia (CY)
Copenhagen (DK)
Reggio Emilia (IT)
Budapest (HU)

FEDORA Solutions

- Enable cross-sectoral interoperability for integrated mobility management.
- Improve efficiency, safety, and sustainability in transport operations.
- Develop a shared data space that enables seamless exchange and processing of diverse datasets for traffic management.
- Support evidence-based decision-making through predictive simulation and AI.
